

Bamboo Canes

Bamboo canes are a low cost and very durable product to give new plants support during the growing phase. Excellent as a support for our tree guards such as CombiGuards and FiberGuards.

Features/Benefits

- Strong, flexible and weather resistant
- Provides stability for young plants in windy conditions
- Excellent support for a variety of tree guards
- Very economical for large scale planting projects
- Plantation grown
- 100% natural product
- Fully graded for consistency
