

Solo[®] 421S

Fertiliser Spreader

- Engineered for quality
- Designed for low operator fatigue
- Large 9kg hopper

Key Features:

- This manual spreader is ideal for seeds, fertiliser, grit, pelletised lime, oil absorbers, cleaning agents, bird seed, stock feed, sand etc.
- Excellent little spreader for around home applications and also used commercially where machine access is prohibited.
- Holds up to 9kg of granulated matter.
- Carried on the front of the body with an adjustable strap over one shoulder.
- Large hopper aperture makes filling easy.
- Integral agitator ensures an even distribution onto the rotating spreader disc driven by the manual crank.
- Adjustable direction and flow rate.

Large hopper

holds up to 9kg of granulated matter
