DekGripTM Anti-Slip Mesh

MEETS SLIP
RESISTANCE
CLASSIFICATION
AS 4586-2013

DekGrip anti-slip mesh overlay is designed for attaching to the surface of exterior wooden walkways, bridges, decks and viewing platforms.

Applications

- Wooden surfaced boardwalks
- Wooden surfaced bridges
- Viewing platforms
- Exterior decking
- Marine accessways

Features/Benefits

- Providing safe all-weather grip
- Ideal for all public areas
- Manufactured from UV stabilised polypropylene
- Designed to withstand New Zealand's tough environmental conditions
- DekGrip is easy to handle and install
- Internal diameter of the squares are approx 34mm
- Will not harbour mould or fungi
- Economical plastic construction avoids rusting issues and potentially sharp edges
- Can be trimmed to size with heavy scissors, snips or secateurs
- Available in three different sizes, custom widths available on indent

Code	Description	Pack Qty
23302	0.90m x 10m	1 Roll
26251	1.90m x 50m	1 Roll
26252	3.90m x 50m	1 Roll

PLEASE NOTE: Roll widths less than 3.95m are custom cut and edges may require trimming back to the outside longitudinal strand before installation.
