

# Tree Tie Webbing Elastic

Elastic Tree Tie Webbing is designed for supporting larger trees in high wind areas where whiplash can be a problem.

## Features/Benefits

- Soft, smooth and will not harm trees
- Reduces whiplash on trees and also helps in branch training where necessary
- The 50mm width gives tree stem greater holding support whilst reducing trunk stress
- Unique lock stitch design that will not unravel
- Can be secured to any stake or ground anchor
- A safer alternative to the traditional wire and hose system
- Recommended for trees up to 13cm diameter
- Supplied in 50m rolls

Code	Size	Pack Qty
21485	50mm x 50m Roll	1 Roll
