

# FiberGuard™

## 100% Biodegradable Seedling Guard

The FiberGuard plant guards are an earth friendly method of protecting young plantings from browsing animals, wind and sprays. 100% biodegradable, they can be recycled or left intact and will biodegrade over time.

### Benefits

- Significantly increases plant survival rates
- Creates its own micro-climate to help plants survive and enhance growth
- Provides good protection in the field for up to 24 months. The rate of degradation is dependent on climate and site conditions.

### FiberGuard protects against:

- Rabbits, possum, wind, and sprays.
- The 450mm also protects against hares.

### Features

- Sloped design for easy placement on hillsides
- Manufactured using a tough recycled fibre board that has excellent puncture resistant properties and high bursting strength
- High 'Wet Strength' due to its FDA compliant moisture barrier helping it withstand damp environments
- Fast and secure install with its pre-assembled design.

| Code  | Size   | Pack Qty |
|-------|--|----------|
| 3980  | FiberGuard 300mm   | 50 units |
| 3973  | FiberGuard 300mm Combo (with 2x 500mm Canes)                       | 50 units |
