

Ecotex™ Mulch Matting Weed Control Fabric

Ecotex™ Mulch Matting is a weed control membrane made purely from organic material that is fully compostable, has a low carbon footprint and is naturally fire resistant.

Biodegradable matting needs to be planted out promptly to work effectively.

Ecotex™ Mulch Matting is an environmentally friendly alternative to traditional weed control fabrics. Manufactured from PLA, a renewable vegetable-based material, it is strong, durable, and fully compostable, certified to EN 13432:2000 standards. Designed for low-maintenance planting areas, its natural appearance blends seamlessly into landscapes while effectively suppressing weed growth without synthetic residues.

Features/Benefits

- Chemical-free suppression of weeds
- Fully decomposes in 3+ years, leaving no residues
- Made from PLA with added hemp
- Robust material designed to withstand tough conditions
- Fire Resistant material

Ecotex™ Mulch Matting

Code	Size	Pack Qty
23485	2m x 50m Roll	1 Roll

Important: Before installing mulch matting or weed matting, thorough eradication of weeds from the area to be covered is strongly recommended. We advise spraying the site with an Organic Herbicide and allowing a few days before installing the matting.

Fix using 100%
Biodegradable BioPins.
