

# FuturFiber® Dag Wool Mats & Rolls

FuturFiber® Dag Wool lasts the distance and is designed to gradually biodegrade over a period after installation, giving plants ample time to get established free from competing weeds.

Biodegradable matting needs to be planted out promptly to work effectively.

100% natural FuturFiber® Dag Wool matting is manufactured from BioGro Certified Dag Wool and is recommended for small and large scale planting projects where soil conservation and weed suppression is required.

- Reduces planting stress – FuturFiber Dag Wool stays damp for hours and allows effective penetration of water and fertilizer and circulation of air. Also reduces evaporation and keeps soil temperature up in cold conditions.
- Feeds your plants – FuturFiber Dag Wool contains the following nutrients: nitrogen, sulphur, sodium, potassium and magnesium. These nutrients are naturally released into the soil over time.
- Eliminates herbicide requirements – is designed to block out sunlight thereby effectively suppressing unwanted competing vegetation regrowth around the plant. No need for ongoing hazardous use of chemical herbicide sprays.
- Easy on the eye – Visual pollution is today a greater consideration on revegetation projects than ever before.
- FuturFiber Dag Wool merges unobtrusively with the natural landscape as opposed to some synthetic products.

## FuturFiber® Dag Wool Rolls

Code	Size	Pack Qty
<b>23O46</b>	2m Width x 30m Length - 600gsm	1 Roll
<b>23O22</b>	2m Width x 30m Length - 750gsm	1 Roll
<b>23O24D</b>	2m Width x 20m Length - 1000gsm	1 Roll

## FuturFiber® Dag Wool Mulch Mats

Code	Size	Pack Qty
<b>23O54B</b>	200mm <sup>2</sup> (Plant Guard Mats)	50 Pcs
<b>23O31B</b>	250mm <sup>2</sup> (Plant Guard Mats)	50 Pcs
<b>23O47B</b>	250mm <sup>2</sup>	1 Pcs
<b>23O41B</b>	360mm <sup>2</sup>	1 Pcs
<b>23O35B</b>	450mm <sup>2</sup>	1 Pcs

**Important:** Before installing mulch matting or weed matting, thorough eradication of weeds from the area to be covered is strongly recommended. We advise spraying the site with an Organic Herbicide and allowing a few days before installing the matting.
