

Pre-slit EcoJute Mulch Matting

EcoJute is a 100% natural mulch matting system manufactured from a specially designed high density reinforced needle-punched jute fibre. Available in 55Ogsm and 75Ogsm weights.

Biodegradable matting needs to be planted out promptly to work effectively.

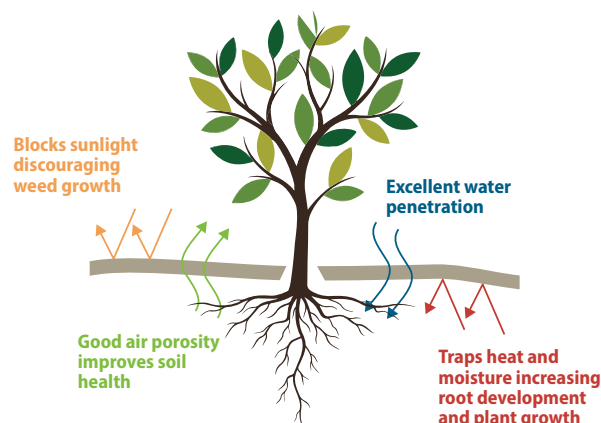

Features/Benefits

- Similar benefits to EcoWool
- 100% natural product
- Manufactured from a high density needle punched jute fibre
- Significant labour savings with planting up to 60% quicker using the pre-slit design
- No cutting with knives required, and holes are already slit
- Reinforced with a tough jute-twine grid for extra stability
- Stabilises soil and reduces erosion on sloping sites
- Provides weed suppression temporarily until plants establish
- A natural alternative to synthetic weed matting
- Designed to biodegrade over time

Fix using Ground Staples, Greenstake Pins or BioPins

Benefits of Pre-slit EcoJute Natural Mulch Matting

Code	Size	Pack Qty
23O56PS	2m Width x 30m Length - 55Ogsm	1 Roll
23O53PS	2m Width x 30m Length - 75Ogsm	1 Roll

Important: Before installing mulch matting or weed matting, thorough eradication of weeds from the area to be covered is strongly recommended. We advise spraying the site with an Organic Herbicide and allowing a few days before installing the matting.
